

Literacy

We will be learning the skills of reading and writing by focussing on myths and biographies. We will create our own Greek Myths based on the myths we have read in school. We will explore recounts looking specifically at biographies that will link into our Victorian topic. As well as this, we will continue to use Talk 4 Writing across our English units to rehearse the texts and then innovate them.

Science

We will learn about materials and their properties. We will investigate which materials are magnetic, hard, transparent, flexible and permeable.

Spanish

We will be learning more simple Spanish phrases.

Art

We will be looking at printing and collecting different artists work to cover the skills needed to produce colourful art printing work.

St. James' Lanehead

Class 3/4 (Year 3/4)

Physical Education

Mrs Burnett will continue to take our physical education sessions. These sessions will take place on a Tuesday and Friday afternoon.

History

We will be learning about the Victorians looking specifically at Victorian children. We will compare Victorian schools to our school as well as demanding jobs that Victorian children had to do.

ICT

Our focus this half term will be looking at coding – in particular, we will be using a command line prompt to give simple instructions to compile a basic computer programme.

Numeracy (Y4)

Our focus will be looking at fractions and in particular, finding equivalent fractions, adding fractions and simplifying fractions. It's really important the children know their tables as this will help them with this.

Music

We will continue to look at musical vocabulary such as pitch, timbre and tempo and use the Glockenspiels to perform our compositions.

Religious Education

Our topic this term will be looking at if churches are all the same. We will investigate and compare different churches around the UK as well as the whole world. We will study the Pentecost and look at why this was important in the inclusion of the church.
